EXECUTIVE PROFILE

Seasoned and independent React.js Developer with over 7 years of experience specializing in building immersive and engaging user experiences. Proficient in the latest front-end technologies, including React.js, Next.js, Typescript, Redux, and other modern frameworks. Skilled in delivering scalable and well-documented code, optimizing applications for speed and scalability, and collaborating with cross-functional teams. Passionate about creating beautiful and functional user interfaces using JavaScript and its frameworks.

SKILLS SUMMARY

- React.js and Next.js: SPA development, server-side rendering, API integration
- Redux and Context API: State management for complex applications
- JavaScript: ES6+, asynchronous request handling, DOM manipulation, jQuery
- Webpack, Gulp.js: Build tools for efficient development and production builds
- RESTful APIs: Integration with server-side services, data fetching with React Query
- Git: Version control and collaboration
- Testing: Jest and other JavaScript unit testing frameworks
- HTML5, CSS3, and CSS frameworks: Responsive web design, CSS animations, Flexbox, Grid, Tailwind CSS
- Deployment: Hosting and deployment on AWS, Netlify, Heroku, GitHub Pages
- SEO: Writing SEO-friendly code, familiarity with Google Analytics, GA4, GTM, Meta Pixel
- UI/UX: Translating designs into code, adhering to best practices, cross-browser compatibility
- Agile Methodology: Scrum, Kanban
- Best Practice Implementation

CAREER PROGRESSION

Senior ReactJs Developer | Landmark Group (www.landmarkgroup.com) – DUBAI, UAE
Feb 2021 – Present

Key Responsibilities:

- Redesigned Emax eCommerce web application using React.js and Next.js frameworks, Redux, Redux Saga, REST APIs, Material Design, Tailwind CSS and other modern technologies
- Utilized Redux for state management, creating predictable and scalable data flow within the application.
- Integrated Redux Saga middleware to handle complex asynchronous operations, such as API calls and side effects.
- Collaborated closely with designers, backend developers, and product owner to understand project requirements and implement optimal technical solutions.
- Optimized the performance of the web application by employing techniques such as code splitting, lazy loading, and caching using Next.js features
- Developed reusable React components and container components to enhance code modularity and reusability.
- Ensured cross-browser compatibility and performed extensive testing on major browsers such as Chrome and Safari.
- Conducted code reviews, identified potential issues, and suggested improvements to maintain code quality and adhere to best practices.
- Actively participated in agile development methodologies, including daily stand-ups, sprint planning, and retrospectives.
- Conducted performance monitoring and optimization using Chrome DevTools, Lighthouse, and other relevant tools.

Front End Developer | **Concorde-Corodex Group** (www.corodex.com) – DUBAI, UAE

July 2018 – Jan 2021

Key Responsibilities:

- Developed, enhanced and maintained internal portal of the company as well as translated business requirements into technical specifications using front end latest technologies.
- Applied optimization techniques using SASS and Gulp.js to improve page load times
- Translated UI/UX wireframes into high-quality, reusable code using HTML5, CSS3, Bootstrap, and JavaScript
- Managed multiple projects simultaneously and collaborated with SEO teams for code optimizations.
- Developing interactive user presentations using HTML5, CSS3, JavaScript and animation libraries for KIOSK screen to be used during the events/exhibition.
- Regularly maintained the group's company websites

UI Developer / Front End Developer | **McCollins Media FZC** (www.mccollinsmedia.com) – DUBAI, UAE

July 2017 – June 2018

Key Responsibilities:

- Translated UI/UX wireframes and mock-ups into interactive and responsive web pages using HTML5, CSS3 & JavaScript.
- Implemented CSS Box Model and styled web pages using CSS3 pre-processor SASS and effectively used Mixins, functions, custom grid systems, grid-area concepts and flexbox for a fluid-responsive application.
- Collaborated closely with the team to support projects during all phases of delivery.
- Monitored website performance and rectified front-end related issues.
- Worked with SEO team and communicated technical issues in an understandable manner to the team and clients.
- Identified innovative ideas and proof of concepts according to project requirements.
- Provided WordPress admin guidance and troubleshooting support to clients.
